Hello Henry-

I wanted to give you and others an update. I have spoken to Nancy and she recommends a ratification letter. So I am working with PSD and her to put a draft together for the IO's review. We should be ready to have a draft by tomorrow COB. I apologize for how long this has taken but Nancy wanted to be sure to explore all options.

Thanks,

Helena

Another option might be for Nino to submit an SF 1164, but he would have to provide a good justification to support the invoice.

Gentleman – letting you know that I have the lead on this...and working with Nancy. So I will be sending you two a draft document soon to review. The bottom line is payment to contractor without going through pre-approvals is an unauthorized commitment.

So while we have a very good justification for why this incident **could not be foreseen**, we have to follow the protocol and write it up. I am leaning on you to help me with the confidential information describing what happened so please feel free to add what you think is appropriate.
